Subject: Letter of Recommendation for Jeff Hanna

To Whom It May Concern:

Jeff Hanna has been employed as the Art Director at Lodestone Games since October 2001. During his employment I have been continually impressed by Jeff's hard work, enthusiasm as well as his managerial and art skills. Jeff possesses an innate aesthetic for good art and I have relied on him without reservation for ensuring that Lodestone's art output was the highest quality.

During the course of his employment, Jeff has led the art department through three projects and has shown himself to be not only a good leader but a great technologist who can successfully bridge the gap between the Art and Engineering departments. Jeff created many internal systems and software for Lodestone which enhanced and increased the efficiency of the process and the quality of the output.

I recommend Jeff without reservation for any Art Management position. I would be happy to further discuss his qualifications with any potential employer. He will be missed at Lodestone

Sincerely,

Lorin W. Jameson
President
